PVC TARPAULIN FABRIC

www.akaatent.com

PVC (POLYVINYL CHLORIDE) tarpaulin is made of vinyl-coated polyester. PVC membranes are polyester base fabrics and often have additional protective PVDF Fluoropolymer coatings on both sides which helps protect the surface and also creates an easy-to-clean membrane. PVC fabric is a very common tensile architecture with a lifespan of more than 20 years and PVC fabric typically offers the best value overall. PVC Tarpaulin fabrics are the best choice for both permanent and temporary structures. PVC Tarpaulin Fabric is a more heavy-duty tarp and these tarpaulins are used for more reliable protection as it is needed. PVC Fabric tends to be Water Proof, Highly Abrasion resistant, and corrosion-resistant or contaminated by oil, acid, grease, and mildew. PVC Tarpaulin Fabric is a more heavy-duty tarp and these tarpaulins
