The Levante is our premium and most popular parasol, designed for the commercial and high-end domestic markets. It is made using a single piece pole for extra strength and durability, and has simple, clean classic lines, with the contemporary feel of stainless steel and natural bamboo. Our double pulley and rope system ensures easy raising and lowering of the parasols, even on the largest of models.

The Levante range incorporates a turned bamboo hub and runner with stainless steel brackets, a bamboo finial, and an elegant, practical cleat locking system. The covers are attached using our own bolt-down stainless steel rib end protector system or alternatively sewn pockets. The ribs and supporting arms are fitted with stainless steel through bolts, making all the parts easily interchangeable.

LEVANTE SIDE WIND

## Technical Data- Levante Side Wind

**Material frame:** The pole, ribs, hub, runner and finial are all made using laminated bamboo. All metal fittings are 304 stainless steel.

Base frame and post connectors e-coated then powder coated steel.

**Opening:** A winch system is used using 304 stainless steel wire.

The Levante Side Wind range is our range of large side pole parasols, manufactured and designed to exacting standards with durability, strength, and style in mind - the three key points of all Akaa tent products. The Side Wind features a 360o rotating base and 45o tilt so you can still find shade as the sun goes down.

The base weights are made using bamboo which sit in a powder coated steel base frame. The frame has adjustable feet for uneven surfaces whilst protecting the floor at the same time. We use a specialized type of polymer for the bearings meaning that they never seize up or rust.

This parasol was designed for both commercial and domestic use, bringing a magnificent focal point for any situation. We can also supply this parasol with a ground base.

SIROCCO SIDE WIND

## Technical Data - Sirocco Side Wind

**Material:** The pole and ribs are all made using laminated bamboo. The hub, runner and finial are all made from marine grade nylon PA66.

All metal fittings are 304 stainless steel

**Opening:** A double pulley and rope system is used for easy, light opening.

Shape	Code	Size	Total height	Open height	Closed height	Pole size	No of Ribs	Size of ribs
	2.0m R-S	2.0m 7'	2.35m 7'8"	1.9m 6'3"	1.2m 3'11"	38 or 48mm 1.5" or 2"	6	25 x 20mm 1" x 3/4"

	2.0m SQ-S	2.0 x 2.0m 7' x 7'	2.53m 8'4"	2.0m 6'6"	1.0m 3'3"	38 or 48mm 1.5" or 2"	4	25 x 20mm 1" x 3/4"

The Sirocco is designed for the commercial and domestic markets with the Akaa tent three key points of design - durability, strength, and style. The main feature of the Sirocco is the use of nylon for the hub and runner, which have built-in rollers for the rope pulley system and a patented locking cleat. This clamps the rope so there is no need for the use of a pin to hold the canopy up.

The smaller sizes of the Sirocco can have a two piece pole using a 304 stainless steel connector allowing for easy storage and transportation.

The Sirocco, like all of our other ranges, has easily changeable parts.

LEVANTE TELESCOPIC

## Technical Data - LEVANTE TELESCOPIC

**Material:** The pole and ribs are all made using laminated bamboo. The hub, runner and finial are all made from marine grade nylon PA66.

All metal fittings are 304 stainless steel

**Opening:** A double pulley and rope system is used for easy, light opening.
